

WINEMAKING PHILOSOPHY

The grape of origin is Timorasso, a white variety which has found favourable soils and exposures on the hills around the town of Tortona, in the province of Alessandria, since Middle Ages.

After soft crushing and a short period of cold maceration, the free run must ferments at a temperature of 16-18 °C to enhance the varietal aromas. This is followed by several months' ageing on lees to improve the product's complexity and longevity.

TASTING NOTES

Colour: intense straw yellow.

Bouquet: complex, either with flower notes of acacia and hawthorn, and ripe notes of peach and honey. Other mineral and flint notes are highlighted in the final.

Palate: dry, with mineral thickness and good acidity. The persistence and texture are outstanding.

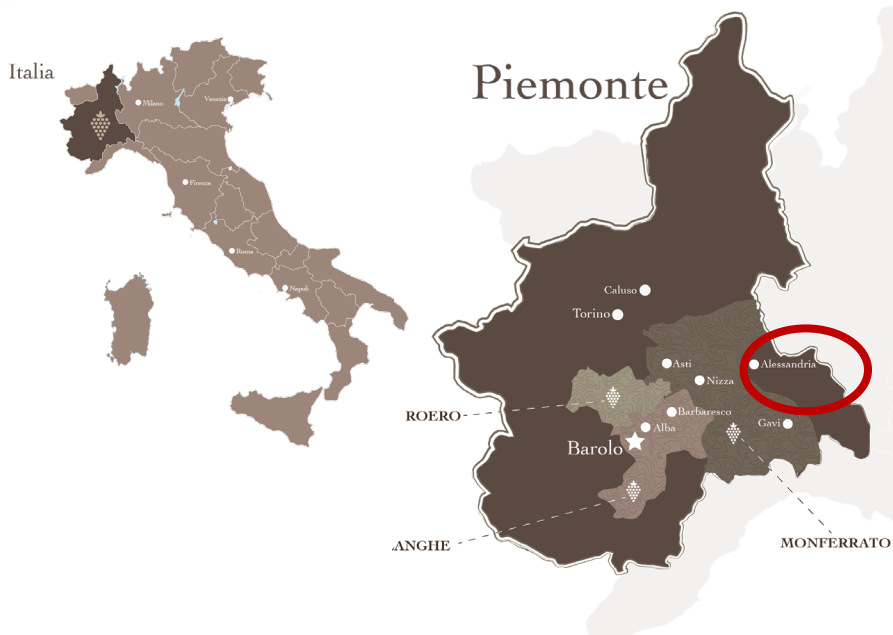

STATISTICAL INFORMATION

Grape variety: Timorasso

Alcohol: 14.0 % vol.

Appellation: Colli Tortonesi DOC Timorasso

Ageing: at least 12 months in steel vats.

Colli Tortonesi DOC Timorasso

VertdeVin
MAGAZINE & WEBSITE FOR WINE & SPIRITS LOVERS

92

The wine has a pale lemon-yellow color. The nose offers concentration, density, and a beautiful harmony between notes of citrus and tart fruits (lemon zest, bitter orange, grapefruit, crushed Granny Smith apple) and the gourmandise of wildflower honey and stone.

Pale buttercup yellow. Firm apple, pear and grapefruit nose with hints of peach jam and orange blossom. Fresh lemon-curd palate and with good length. Won't disappoint anyone. WS
